This volume collects four short works, each concentrated on a key issue in composition. Written in 1917, but altered and augmented many times in later years, the manuscripts edited and translated in this volume have never been published before. ø Their importance can permit no further delay since they present Schoenberg's thinking well after the publication in 1911 of *Harmonielehre*, his revolutionary theoretical book. The later texts provide numerous prospects for enhancing the study and appreciation of Schoenberg's compositions and theories. ø Also a painter, Schoenberg enjoyed the friendship of Kandinsky and the Berlin expressionists. This volume includes a frontispiece reproducing one of Schoenberg's paintings. Thinking. Doing Caring. In every chapter, you'll first explore the theoretical knowledge behind the concepts, principles, and rationales. Monsignor Luigi Giussani (1922-2005) was the founder of the Catholic lay movement *Communion and Liberation* in Italy, which has hundreds of thousands of adherents around the globe. In *The Life of Luigi Giussani* Alberto Savorana, who spent an important part of his life working and studying with Giussani, draws on many unpublished documents to recount who the priest was and how he lived. Giussani's life story is particularly significant because it shares many of the same challenges, risks, and paths toward enlightenment that are described in his numerous and influential publications. Savorana demonstrates that the circumstances Giussani experienced and the people he encountered played a crucial role in defining his vocation. Illuminating details are shared about Giussani's parents, professors, and friends in the seminary, the things he read, his priesthood, his experience teaching, misunderstandings and moments of recognition, and illness. Luigi Giussani considered Christianity to be a fact, a real event in human
