Signs of Attraction Apr 13 2021 "Brown offers a powerful look into the world of hearing loss... a notable and groundbreaking debut by an author to watch. An empowering and satisfying romance." -- Kirkus Reviews

Do you know what hearing loss sounds like? I do. All my life I've tried to be like you. I've failed. So I keep it hidden. But on the day my world crashed down around me, Reed was there. He showed me just how loud and vibrant silence can be, even when I struggled to understand. He's unlike anyone I've ever known. His soulful eyes and strong hands pulled me in before I knew what was happening. And as I saw those hands sign, felt them sparking on me, I knew: imperfect could be perfect. Reed makes me feel things I've never felt. It's exciting . . . and terrifying. Because he sees me like no one else has, and I'm afraid of what he'll find if he looks too closely. The only thing that scares me more than being with him? Letting him go. An Avon Romance

The Rules of Attraction Aug 30 2022 From the bestselling author of *Less Than Zero* and *American Psycho*, *The Rules of Attraction* is a startlingly funny, kaleidoscopic novel about three students at a small, affluent liberal-arts college in New England with no plans for the future--or even the present--who become entangled in a curious romantic triangle. They waste time getting wasted, race from Thirsty Thursday

Happy Hours to Dressed To Get Screwed parties to drinks at The Edge of the World or The Graveyard. The Rules of Attraction is a poignant, hilarious take on the death of romance. *Total Law of Attraction* Nov 08 2020 Now available as an eBook, a simple step-by-step guide that allows you to realistically apply the Law of Attraction to improve your life and achieve the next level of practical understanding. The Law of Attraction is one of the most popular topics in the area of self-help. At the same time, it is also one of the most misunderstood. Why is that? There are three main reasons: First, there are hundreds of Law of Attraction books available, and most either rehash the same information or completely differ on what they teach, which results in confusion. Second, the big-name "experts" on the Law of Attraction never teach the real secrets in their books, as they mainly try to convince you to enroll in their expensive courses, which supposedly teach the real secrets. And lastly, the majority of Law of Attraction books are either motivational and/or inspirational while lacking practicality. In this economic recession, people more than ever need the Law of Attraction to find a new job, earn more money, or simply to improve their lives. What exactly is the Law of Attraction? Plain and simple, it is the process of tapping into the hidden powers of our subconscious mind to "manifest" what we desire into our physical reality. Total Law Of Attraction explains in plain language that it's our emotions, not so much our thoughts, that play a greater role in attracting what we want. Total Law Of Attraction avoids the need to search through many different Law of Attraction books to get the most important information. In one book, Dr. David Che has made the most powerful secrets of the Law of Attraction accessible for any individual who seeks them.

Attraction Explained Sep 06 2020 When it comes to relationships, there's no shortage of advice from self-help 'experts', pick-up artists, and glossy magazines. But modern-day myths of attraction often have no basis in fact or – worse – are rooted in little more than misogyny. Based on science rather than self-help clichés, psychologist Viren Swami debunks these myths and draws on cutting-edge research to provide a groundbreaking and evidence-based account of relationship formation. At the core of this book is a very simple idea: there are no 'laws of attraction', no fool-proof methods or strategies for getting someone to date you. But this isn't to say that there's nothing to be gained from studying attraction. Based on science rather than self-help clichés, Attraction Explained looks at how factors such as geography, physical appearance, reciprocity, and similarity affect who we fall for and why. With updated statistics, this second edition also includes new content on online dating, queer relationships, racism in dating, shyness, and individual differences. It remains an engaging and accessible introduction to attraction relationship formation for professionals, students, and general readers.
