Introducing a new way to think about higher education, learning, and technology that prioritizes the benefits of the human dimension. José Bowen recognizes that technology is profoundly changing education and that if students are going to continue to pay enormous sums for campus classes, colleges will need to provide more than what can be found online and maximize "naked" face-to-face contact with faculty. Here, he illustrates how technology is most powerfully used outside the classroom, and, when used effectively, how it can ensure that students arrive to class more prepared for meaningful interaction with faculty. Bowen offers practical advice for faculty and administrators on how to engage students with new technology while restructuring classes into more active learning environments. Fans of fractured fairy tales will be delighted to discover the fantasy, mystery, adventure, and humor in the beloved New York Times bestselling Sisters Grimm series by Michael Buckley, now with new cover art. As featured on NBC's The Today Show, the nine wildly popular books are favorites around the world. They were among the first books to bring a distinctly girl-power spin to fairy tales--a spin taken up by hit movies and shows TV such as Once Upon a Time, Grimm, and Maleficent, the bestselling book series The Land of Stories, and other. New covers will appear on book one, The Sisters Grimm: The Fairy-Tale Detectives; book two, The Sisters Grimm: The Unusual Suspects; and book three, The Sisters Grimm: The Problem Child. Books four through nine will be available in revised editions soon. ? This third book in the series takes a dark twist, as Sabrina and Daphne get closer to uncovering the truth about their parents. Coming face-to-face with their parents' kidnappers, the sisters are stunned when one of them turns out to be the world's most famous fairy-tale character (hint: she wears red) and the other an unstoppable killing-machine known as the Jabberwocky. Without the presumed-dead Mr. Canis (aka The Big Bad Wolf) fighting at their side, the girls have little hope that they'll ever be reunited with their mother and father. That is until their long-lost Uncle Jake returns home with stories of a weapon that can kill the Jabberwocky--a weapon so powerful that it had to be shattered into many pieces. Now the girls must find the pieces so the deadly weapon can be reformed. But to get the deed done they'll have to go head-to-head with the Wizard of Oz, the (not so) Little Mermaid, and even the horrible witch Baba Yaga. To complicate matters, Sabrina begins to struggle with an addiction to magic and finds herself unraveling a real-life family mystery. With an irresistible combination of adventure and imagination, the Sisters Grimm series injects classic fairy tales with modern day sensibilities and suspense, creating a fantastical combination readers of all ages will love. "Kids will love Sabrina and Daphne's adventures as much as I did." --Sarah Michelle Gellar, star of Buffy the Vampire Slayer and I Know What You Did Last Summer "Adventure, laughs, and surprises kept me eagerly turning the pages." --R.
