*Treating Affect Phobia* Feb 20 2022 This hands-on manual from Leigh McCullough and associates teaches the nuts and bolts of practicing short-term dynamic psychotherapy, the research-supported model first presented in "Changing Character," McCullough's foundational text. Reflecting the ongoing evolution of the approach, the manual emphasizes "affect phobia," or conflict about feelings. It shows how such proven behavioral techniques as systemic desensitization can be applied effectively within a psychodynamic framework, and offers clear guidelines for when and how to intervene. Demonstrated are procedures for assessing patients, formulating core conflicts, and restructuring defenses, affects, and relationship to the self and others. In an easy-to-use, large-size format, the book features a wealth of case examples and write-in exercises for building key clinical skills. The companion website ([www.affectphobia.org](http://www.affectphobia.org)) offers useful supplemental resources, including Psychotherapy Assessment Checklist (PAC) forms and instructions.

**P-40 Warhawk Pilot's Flight Operating Manual** Oct 31 2022 Flown by the American Volunteer Group in China known as the "Flying Tigers," the P-40 Warhawk earned a reputation for its toughness in combat. Facing odds of 6 to 1 in most combat situations, AVG pilots relied on their skill, daring and their aircraft's superior diving speed to achieve victory. By war's end the Tigers had destroyed more than 1200 Japanese planes, with another 700 listed as probables. Their own losses came to 573 aircraft. Originally printed by the U.S. Army Air Force for pilots transitioning to the P-40, this flight manual contains detailed information about one of history's great planes. Originally classified as "restricted," the manual was declassified long ago and is here reprinted in book form. Some color images appear in black and white, and some pages have been slightly reformatted. Care has been taken however to preserve the integrity of the text.
