Different sea creatures. I am not a writer by any means, just a simple county girl, daughter, wife, mother and friend. I'm a feed truck driver for a local hog production company. My husband is a School teacher. We neither hold impressive worldly titles or celebrity status, but God has inspired me over the past couple of years to share our story of loss in book form. As Christians, we believe our pain carries a purpose, a purpose of hope in tragedy. I can't imagine not sharing our story with others experiencing the struggle of living in the loss of a child. My soul intent is to bring a measure of insight, expectation and anticipation for what lies ahead if we choose to trust God and His timing. Life doesn't always turn out the way we planned, but God provides the people and tools we need to navigate through His will over ours. Please read, be encouraged, and be blessed! Penny Burford, a housewife, secretly saves all her husband Roy's loose change for charity, and it is only after she dies that Roy realizes the extent of his wife's generosity. When people die, are they ever truly gone? I had heard the saying "pennies from heaven" before, but my coins from heaven seemed to be dimes. Was my father actually

sending me dimes to show me he wasn't really gone? My mother seemed to be sending pennies all the time, but my dad was pretty clever. Everyone around me knew that I was sensitive, but it took me writing about a few special dimes to discover what it meant to be an empath. Along with the messages from Heaven, I share how I am listening to the positive voice inside my head. This book is about so much more than dimes, yet without them, I wouldn't have written it. This book is about a penny that can magically talk and a young boy who can hear him. It's about the start of their journey together. Our life story from this day forward doesn't have to mimic the pain of our past. Men and women who are equipped and empowered to revise the narration of past-life incidents can learn to narrate a story of joy, confidence, and hope as life unfolds. The characters that share our daily stage may add drama, humor, and sometimes even horror to our life stories, but we don't have to be at their mercy. Acknowledging the roles of others, learning how to draw healthy boundaries, and knowing the value and benefits of inviting these characters to play a significant role in our story can lead to living out a rich and rewarding story line. Our lives are not an accident. Instead, we encounter incidents on a daily basis that can often be quite unexpected and unnerving. But shifting our paradigm about these happenings from accidental to incidental can open our hearts and minds to great opportunities. Daily, we are faced with many decisions to be a victim or live in victory. Which will you choose? "Pick Up the Pennies" is a story. The philosophy of this story may seem very simple and practical; but for Michael T. Goskowski, it became a light that guided his life. Goskowski's childhood years were difficult as his entire family struggled to rise above poverty and degradation. For fear of working in the coalmines, Michael learned to do his best to seize a better future for himself. Growing from boyhood to manhood during the Great Depression and World War II presented unique challenges that helped create an interesting life and an interesting man. "His

aggressiveness and optimistic attitude toward the future kept him focused always on achievement and progress." Readers will follow Mike Goskowski's life through his boyhood and his coming-of-age as a soldier in World War II. They will experience the ups and downs of his family life as Goskowski struggled to hold onto his faith and realize his dreams. By the end of this book, your pockets will be full from learning how to "Pick Up the Pennies." Follows the experiences of a penny born in Philadelphia that travels everywhere from New York to Portland, Oregon, to Puerto Rico describing in detail his many adventures along the way. Goodreads reviewer, 5 stars When Nancy Northrop Sluzinski became a widow—losing her best friend and daily conversation partner of thirty years—she experienced immense sadness, anger, and loneliness. Following her husband's death, she owned two farms—one in Connecticut and one in North Carolina—as well as a small winter home in Florida. She worked part-time as a cashier in a clothing store and collected social security. Overwhelmed by both her own emotions and the processes of death and grief, she was completely alone, having no living family. When the penny happenings started, therefore, she didn't pay much attention. After all, who ever heard of pennies from heaven—except in the movies? But when they continued to appear, she began to take notice and keep a record. As she shared her happenings with the pennies with other people, she found that they too had similar

experiences. Her penny moments brought such joy into her life because she knew her husband was indeed watching over her from heaven. Pennies from Heaven ... Really shares the true story of how she came to terms with her grief and maintained a connection with her husband. Now, she has decided to share the joy with grieving family members everywhere. Jonathan Penny from his first battle as a Private in the Union army, through the next 14 months. He gains recognition as an exceptional soldier moving up the ranks rapidly and even spending time undercover as a spy in a rebel encampment. He saves the life of a Rebel Soldier and they establish a peculiar, if extraordinary, friendship. Johnny hates the war. He hates killing. He meets truly good people on both sides of the conflict and ponders the big questions and conundrums that enter his life: How can good people commit such evil acts as killing each other; how was he able, day after day, battle after battle kill other boys his age - boys he had no reason to hate; why, generation after generation, were men unable to see the folly of war - the pain, the maiming, the destruction, the death. War was a battle of ideas - killing off a generation of boys would never kill ideas. Why did love keep losing to evil? Eventually, he had an encounter with a truly evil man. It was horrendous and for him, life altering. This is a story of man's most egregious act - the perpetration of war. This is an exploration of the motivation, the execution, and the always devastating conclusion of that senseless, vicious undertaking. It is not a book for the faint of heart. It is a book that hopes to lay bare truth and stir its readers toward productive reflection and thoughtful action against the ever-present evil forces in our world. Sadly, it can offer no solution. The book was written 25 years after an unexpected life changing experience when I was invited to a church, found an old Bible and started reading it and couldn't put it down. The book brings out the many scriptures that I found so interesting when I first started

reading and studying it. It changed my whole outlook on life. When I retired I thought it was a good time to share my experience with others. When you read through this book I'm sure it will put you deep in thought about your purpose in life. One Brown Penny and a Mighty Big God is a collection of inspirational short stories. I call it my awakening from God. As a single mom, working two jobs at times, it was not always easy to know where our next meal would come from. Although I had family support and the support of friends, it was still difficult. In the midst of a sleepless night, awoken at 1:30 a.m., I began to write about a brown penny. I could not imagine why. But by 4:00 a.m., four pages of a book had been written. The irony was that the very next day, I had to count out \$20 in pennies to go and buy something to eat, thus a story is born. This penny would come to symbolize a time of feeling unworthy, broken, and during a time where if you didn't have, you could associate your life to the "brown penny," that feeling of being cast down or cast away. It was and remains an inspiration from the beginning to the end of how God can and will make a way to feed you, clothe you, and shelter you through your worst times. Penny Ferguson's story is an amazing one. Abandoned as a baby, teased and bullied at school, emotionally and physically destroyed by not one, not two, but three abusive marriages, she found herself on the cusp of fifty, broke, alone, and in despair. Taking stock of her circumstances, she resolved to turn her life around, to break the patterns that had governed her life so far, and to stop wasting her life. In order to change her life, she had to change herself. Penny succeeded in her aims, and is now a successful and happy leadership and team building consultant. Over ten thousand people have attended training courses run by Penny Ferguson Ltd., with an amazing proportion of attendees attesting that they have experienced real change in their lives for the better as a direct result. Transform your life encapsulates the life-changing ideas Penny has

passed on to people through her consultancy and training courses. It can inspire you to work out a vision for your personal and business life, and set out clearly an action plan to achieve it. Jenny Blake has a theory about life: big decisions often don't amount to much, but little decisions sometimes transform everything. Her theory proves true the summer of 1955, when 14-year-old Jenny makes the decision to pick up a penny imbedded in asphalt, and consequently ends up stopping a robbery, getting a job, and meeting a friend who changes her life forever. Jenny and Miss Shaw form a friendship that dares both of them to confront secrets in their pasts--secrets that threaten to destroy them. Jenny helps Miss Shaw open up to the community around her, while Miss Shaw teaches Jenny to meet even life's most painful challenges with confidence and faith. This unexpected relationship transforms both characters in ways neither could have anticipated, and the ripple effect that begins in the summer of the penny goes on to bring new life to the people around them, showing how God works in the smallest details. Even in something as small as a penny. After sharp-witted trader Ray is told by his sexy lawyer wife Penny to stop insider trading, he knows that something must change. When he discovers she's been having an affair on her business trips, the tables are turned and he has to choose between keeping the millions he's fraudulently made or keeping the woman he loves. How will he decide? Chief Inspector Armand Gamache of Canada's S uret e du Quebec is called to Three Pines, a tiny hamlet south of Montreal, to investigate the suspicious hunting "accident" that claimed the life of Jane Neal, a local fixture in the village. This collection of thoughts and ideas came from an outcry of pain and suffering. Many people are in need to be listened to and call for action. I just wanted to freestyle with writing and help those believe in themselves. The more I wrote, the larger the readership grew. I received correspondence from all over on how a certain story helped them in some way. Sometimes I was asked to write

something to inspire an event that was coming up and it ended up inspiring the masses. My intention was simple just to write what I felt on certain things and remind people how important and special they are. There are many people that feel lost and need guidance and I assumed a role to simply guide those lost souls. Most people I have encountered never were lost. They were just sidetracked off their path or journey. The snowball effect happened as I wrote more and these are a collection of my most favorite stories. These aren't mine; they belong to you, the reader. They have helped so many and I hope they help a new group of people by getting the word out. Bob Frost was created a while ago for my love of Robert Frost. I first heard "Nothing Gold Can Stay" from "The Outsiders" and fell in love with the poem. I've been studying his many quotes and poems, and made me look up to him as a writer, mentor and even friend. I took his name in celebration of his work and wishful thinking. I joined an anonymous website to express some personal issues in my life and quickly found others just like me. People had gotten to know me as "Bob" and I stuck with it. My real name, real life, make no difference and I preferred to remain an unknown person writing to many people about what they wanted to talk about. Some chose to write about happy things and some wanted to vent and get some answers. To me, it's the never ending quest for wisdom and knowledge. I possess none or pretend that I do. These stories are just my opinions, not facts. I don't have a degree in anything other than "life". I'm a middle class male in America trying to find my own way in life, my path. I don't boast a PhD in anything other than hard knocks. I love to write and I enjoy helping others effortlessly. If I don't have an answer for you, I'll find out one and help you any way I can. I'm here to live my life and walk my path. What I didn't realize is that while I live my life I encounter others on my path. Some are looking for guidance; some are looking for a helping hand. Some people just ignore and keep on walking. I refuse to believe in that way of thinking. As much as I

argue with others about what I do, I feel the personal need to listen to every voice that write or talks to me. It makes for a difficult life for me, but the rewards mean more to me than anything. You have to sacrifice so much to be happy. You have to sometimes put everything and everyone aside and believe me, I did at first. I lost a lot but later found out it was the others that lost me. It took a long, vigorous process for me to accept the fact that not everyone is going to accept me. I've tried my whole life to be accepted and I still feel as if I'm not totally a part of society. So I write on and hopefully help others feel comfortable and at ease. I have always been an empath and that alone is a pain that I wouldn't wish on anyone. Believe me, it's mostly my own fault for being so naïve, but like I stated before, the rewards are limitless. So many people have thanked me and told me stories of success. The last couple of years I've told that I should publish my writing and try to get this message out to as many people as I can. After much thought, I decided to go for it. This book represents who and what "Bob Frost" is. I hope I don't come off as pompous, but I finally separated myself from my alter ego. I am an individual and that's why I have come out and did this. I don't use politics or religion in my writing. I feel the human soul is enough of a religious and political struggle within you. I don't use it a GRADES K-3: With age-appropriate activities, this beginning time and money workbook helps children build knowledge and skills for a solid foundation in early mathematics and real-life application.

Time. What is it? We all know the answer to that question: twenty-four hours per day; each and every day of our lives. There is no rhyme-or-reason for this. But for Aaron Cohen, time wasn't exactly time. You see, one day he was a functioning man of age 32, living in 2016. Suddenly his idyllic life was interrupted when, in a sudden taxi crash, his loving wife and three-year-old daughter were taken from him. Imagine! Living the life of Riley--and the next... He found himself in 1936. He found and adopted an Afro-American 10-year-old girl named Penny. These two would continue to live out their lives in 1936. But there was history upcoming--a war and a Holocaust. Aaron is aware of history to come. He now has two missions, and a responsibility--to prevent the destruction of six million Jews and a new life--with his daughter. This is the story of a thoroughly spoiled young man who is sent to prison for DUI vehicle homicide and finds his life totally turned around by God, working through the visits of a wise, Godly Grandmother and her Granddaughter. A beautiful romance develops and his whole new life is in front of him. A "Feel good" Novella. An American tapestry is woven daily with the circulation of coins, and who better to tell our story than the currency that is most prolific yet incredibly underappreciated: the penny. "I absolutely love this book. I could not put it down until I read where the penny would land next and knew which fascinating and interesting people I was going to meet. As the story unfolds, it becomes clear that this is more than an adventure of a humble penny: we're shown that "significance" is found in making an impact and difference in the lives of those around us." Tom McConnell, longtime Division I and II Mens and Womens head college basketball coach "A Penny's Thoughts helps us all to see the

magical and divine parts of life through the perspective of one penny as it passes through the hands of many people on vastly different personal journeys. Its timely message is clear: if a penny can find out the true meaning of life, despite the hardships, we can too. A book for any age, *A Penny's Thoughts* is sure to take you on an unexpected journey of your very own." Kara Lawler, author of *Everywhere Holy* "A Penny's Thoughts is beyond creative, well written and intriguing from the moment you start reading. The idea that a penny, or any object for that matter, could tell a story from their vantage point is so thought provoking. I kept finding myself asking, "What would a penny say about my life?" What would my story be? Very creative correlations made between a penny's "life" and our own as well. I highly recommend this investment of time!

Dan O'Leary, former Notre Dame and NFL tight end For the first time, I reveal the horrendous events that began on October 21, 2001 when my husband, Dan Pelosi, became the primary suspect in the murder of Theodore Ammon. Three years later he was found guilty and sentenced to twenty-five years to live. When the bludgeoned naked body of the wealthy financier was found in his East Hampton country estate, my life and the lives of my children were never the same again. The death of the New York millionaire instantly became a sensational news item that led to hundreds of stories printed in every Long Island newspaper as well as lengthy articles in *Time Magazine*, *The Star* and other tabloids. The East Hampton murder didn't stop the printed word, national television jumped in with specials on Paula Zahn Live, Primetime, Dateline, 48 Hours, Court TV and a Lifetime TV movie called *Murder in the Hamptons*. Depressed, humiliated and filled with shame, I prayed to God for help. He sent me an Angel. When I felt confused and alone, pennies miraculously appeared that gave me the faith to forge ahead. Surprisingly, from a place of disgrace and shame, and the help of an Angel, I found the strength to hold my head up high. It has taken me over five years to find the

courage to tell what it was like living on the sideline of a sensational murder, and more importantly, to expose the insanity of a twenty-year dysfunctional marriage. Sometimes we find ourselves feeling like an old penny. Worthless. Forgotten. Discarded. Flattened. Ugly. Yet, like the penny, we still have value, we can make a difference. We have the power to smile. We have the power to be kind. We have the power to be courteous and pleasant. We have the power to praise. We have the power to listen. We have the power to try. We have the power to care. We do not lack for power. We just need to recognize what we do have and make the best use of it. These short selections show readers the path to cultivating the everyday powers, gifts, and opportunities we all have, so as to make a positive difference in our world. Discover your power, discover the Power of a Penny. Based on the events that led Koedi "Gracie" Nealy to her life-long passion for spreading the Gospel of Jesus, "Pennies from Heaven" teaches children that they are never too young to do great things for God. The idea of helping the overlooked and undervalued in our communities and changing lives one penny at a time came to Koedi at the age of seven. In 2015, her journey culminated in the non-profit Graced Ministry that currently ministers to the homeless population in Houston, Texas. To learn more about how to be involved with Graced Ministry, please visit www.gracedministry.org. Sometimes, things are not what they seem, and the things that we carve the most are not always what we need. This story is centered around the life of a young lady named Trish who from the looks of things has it all: a great job, an ideal marriage, nice house, and other luxuries of life. But it's not until she fights her way to the top that she actually realizes how lonely being at the top can be. As life would have it, it's through a weird twists of events that she gets the chance to see her marriage, her career, and her life for what it really is, a sham of happiness coated with a tint of perfection. In just 48 hours, she gets the opportunity to have a second chance at life, happiness,

and love.
