These lively stories follow Rey Castaneda from sixth through eighth grade in Nuevo Penitas, Texas. One side of Rey's family lives nearby in Mexico, the other half in Texas, and Rey fits in on both sides of the border. In Nuevo Penitas, he enjoys fooling around with his pals in the barrio; at school, he's one of the "A list" kids. As Rey begins to cross the border from childhood into manhood, he turns from jokes and games to sense the meaning of work, love, poverty, and grief, and what it means to be a proud Chicano--moments that sometimes propel him to show feelings un hombre should never express. It's a new territory where Rey longs to follow the example his hardworking, loving father has set for him. "Part quirky love story, part philosophical manifesto, and part metaphysical mystery . . . right at home with the works of Tom Robbins and Christopher Moore" (Sacramento Book Review). A prisoner spins a playing card into a somersault, stirring a whirlwind that becomes a tornado that takes the roof off a church in nearby Normal, Illinois. Elizabeth Wildhack is born in that church and someday she will meet that prisoner, a man named Diablo, on the streets of New Orleans—where a hurricane-like Great White Spot hovers off the coast. But how is it all interconnected? And what does it have to do with a time-traveling serf and a secret society whose motto is "Walk away"? This surreal novel exploring chaos theory comes from the acclaimed author of the cult favorites Just a Couple of Days and Love and Other Pranks. "As fanciful and inventive in its form . . . as it is in its observations. It fed tasty crackers to all the hungry parrots in my mental aviary." —Tom Robbins "Linguistic gymnastics abound . . . Vigorito demonstrates once again that he's a wild stylist . . . startlingly original . . . an entertaining anarchist." —Chicago Sun-Times "A whimsical tale of time, space, coincidence, and cause and effect. The author displays most of the linguistic acrobatics and playful rumination that made his debut a cult classic . . . In the tradition of Douglas Adams and Tom Robbins." —Kirkus Reviews A condensed and more streamlined version of the very popular and widely used UNDERSTANDABLE STATISTICS, Ninth Edition, this book offers users an effective way to teach the essentials of statistics, including early coverage of Regression, within a more limited time frame. "Pemberton's beautifully told story is a rags to riches journey—beginning in a place and with a jarring set of experiences that could have destroyed his life. But Steve's refusal to give in to those forces, and his resolve to create a better life, shows a courage and resilience that is an example for many of us to follow." —Stedman Graham, author, educator Home is the place where our life stories begin. A Chance in the World is the astonishing true story of a boy destined to become a man of resilience determination and vision. Down in the dank basement, amidst my moldy, hoarded food and beloved worm-eaten books, I dreamed that my real home, the place where my story had begun, was out there somewhere, and one day I was going to find it. Taken from his mother at age three, Steve Klakowicz lives a terrifying existence. Caught in the clutches of a cruel foster family and subjected to constant abuse, Steve finds his only refuge in a box of books given to him by a kind stranger. In these books, he discovers new worlds he can only imagine and begins to hope that one day he might have a different life, that one day he will find his true home. A fair-complexioned boy with blue eyes, a curly Afro, and a Polish last name, he is determined to unravel the mystery of his origins and find his birth family. Armed with just a single clue, Steve embarks on an extraordinary quest for his identity, only to find that nothing is as it appears. Through it all, Steve's story teaches us that no matter how broken our past, no matter how great our misfortunes, we have it in us to create a new beginning and to build a place where love awaits.
