Mudshark May 18 2021 Mudshark is the go-to guy for any mysteries that need solving. Lost your shoe? Can't find your homework? Ask Mudshark. That is, until the Psychic Parrot takes up residence in the school library and threatens to overturn Mudshark's position as the guy who knows all the answers. The word in school is that the parrot can out-think Mudshark. And right now, the school needs someone who's good at solving problems. There's an escaped gerbil running rampant, an emergency in the faculty restroom, and all the erasers are disappearing from the classrooms. When Mudshark solves the mystery of who's stealing the erasers, he discovers the culprit has the best of intentions. Now he has to think of a way to prevent the Psychic Parrot from revealing the eraser-thief's identity. With a bit of misdirection and a lot of quick thinking, Mudshark restores order to the chaos . . . just for the moment.

Parenting Matters Mar 04 2020 Decades of research have demonstrated that the parent-child dyad and the environment of the familyâ€"which includes all primary caregiversâ€"are at the foundation of children's well-being and healthy development. From birth,

children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and

practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

The Custodian of Trust Apr 16 2021 He was silently managing the crisis in India's banking sector then. Now he shares these stories in his memoir. It began from a modest house in one of the narrowest lanes of the old city of Meerut. From being a probationary officer in the State Bank of India (SBI) in 1980 to its Chairman in 2017, Rajnish Kumar had an amazingly interesting journey in which he saw the many changes in India's banking sector that greatly impacted the country and its economy. As the Chairman of SBI, Kumar recounts, his term was rather momentous as the period-from 2017 to 2020-during which he shouldered this responsibility was rather unique under any circumstances. The Indian banking sector was going through one of its most tumultuous phases. The problem of non-performing loans (NPLs) had severely impacted the balance sheet and profitability of banks, especially those in the public sector. In the aftermath of demonetization, the YES Bank fiasco, the crisis in Jet Airways and NPLs, among others, **The Custodian of Trust** is a candid memoir by the

former Chairman of India's largest commercial bank. Anecdotal, engaging and evocative, this book is an unputdownable memoir of a former banker.

The Lives of Campus Custodians Jun 30 2022

This unique study uncovers the lives and working conditions of a group of individuals who are usually rendered invisible on college campuses--the custodians who daily clean the offices, residence halls, bathrooms and public spaces. In doing so it also reveals universities' equally invisible practices that frequently contradict their espoused values of inclusion and equity, and their profession that those on the margins are important members of the campus community. This vivid ethnography is the fruit of the year's fieldwork that Peter Magolda's undertook at two universities. His purpose was to shine a light on a subculture that neither decision-makers nor campus community members know very much about, let alone understand the motivations and aspirations of those who perform this work; and to pose fundamental questions about the moral implications of the corporatization of higher education and its impact on its lowest paid and most vulnerable employees. Working alongside

and learning about the lives of over thirty janitorial staff, Peter Magolda becomes privy to acts of courage, resilience, and inspiration, as well as witness to their work ethic, and to instances of intolerance, inequity, and injustices. We learn the stories of remarkable people, and about their daily concerns, their fears and contributions. Peter Magolda raises such questions as: Does the academy still believe wisdom is exclusive to particular professions or classes of people? Are universities really inclusive? Is addressing service workers' concerns part of the mission of higher education? If universities profess to value education, why make it difficult for those on the margins, such as custodians, to "get educated." The book concludes with the research participants' and the author's reflections about ways that colleges can improve the lives of those whose underpaid and unremarked labor is so essential to the smooth running of their campuses. Appendices provide information about the research methodology and methods, as well as a discussion of the influence of corporate managerialism on ethnographic research.

Planning Guide for Maintaining School Facilities Aug 28 2019 This title is no longer available in print. However, please visit the NCES website at <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2003347> to view an electronic version of the text. As America's school buildings age, we face the growing challenge of maintaining the nation's education facilities at a level that enables our teachers to meet the needs of the

21st century learners. This tool has been developed to help readers better understand why and how to develop, implement, and evaluate a facilities maintenance plan. It focuses on: maintenance as a vital task in the responsible management of an education organization, the needs of an education audience, strategies and procedures for planning, implementing, and evaluating maintenance programs, a process to be followed, rather than a canned set of "one size fits all" solutions, and recommendations based on "best practices", rather than mandates. The document offers recommendations on the following important issues, which serve as chapter headings: Introduction to School Facilities Maintenance Planning Planning for School Facilities Maintenance Facilities Audits (Knowing What You Have) Providing a Safe Environment for Learning Maintaining School Facilities and Grounds Effectively Managing Staff and Contractors Evaluating Facilities Maintenance Efforts

The Ulama in Contemporary Islam Dec 01 2019
From the cleric-led Iranian revolution to the rise of the Taliban in Afghanistan, many people have been surprised by what they see as the modern reemergence of an antimodern phenomenon.

This book helps account for the increasingly visible public role of traditionally educated Muslim religious scholars (the `ulama) across contemporary Muslim societies. Muhammad Qasim Zaman describes the transformations the centuries-old culture and tradition of the `ulama have undergone in the modern era--transformations that underlie the new religious and political activism of these scholars. In doing so, it provides a new foundation for the comparative study of Islam, politics, and religious change in the contemporary world. While focusing primarily on Pakistan, Zaman takes a broad approach that considers the Taliban and the `ulama of Iran, Egypt, Saudi Arabia, India, and the southern Philippines. He shows how their religious and political discourses have evolved in often unexpected but mutually reinforcing ways to redefine and enlarge the roles the `ulama play in society. Their discourses are informed by a longstanding religious tradition, of which they see themselves as the custodians. But these discourses are equally shaped by--and contribute in significant ways to--contemporary debates in the Muslim public sphere. This book offers the first sustained comparative perspective on the `ulama

and their increasingly crucial religious and political activism. It shows how issues of religious authority are debated in contemporary Islam, how Islamic law and tradition are continuously negotiated in a rapidly changing world, and how the `ulama both react to and shape larger Islamic social trends. Introducing previously unexamined facets of religious and political thought in modern Islam, it clarifies the complex processes of religious change unfolding in the contemporary Muslim world and goes a long way toward explaining their vast social and political ramifications.
