Global Manga Oct 05 2020 Outside Japan, the term 'manga' usually refers to comics originally published in Japan. Yet nowadays many publications labelled 'manga' are not translations of Japanese works but rather have been wholly conceived and created elsewhere. This book takes seriously the political economy and cultural production of this so-called 'global manga' produced throughout the Americas, Europe, and Asia and explores the conditions under which it arises and flourishes; what counts as 'manga' and who gets to decide; the implications of global manga for contemporary economies of cultural and creative labour; the ways in which it is shaped by or mixes with local cultural forms and contexts; and, ultimately, what it means for manga to be 'authentically' Japanese in the first place.

The Science of Breakable Things Dec 19 2021 Natalie's uplifting story of using the scientific process to "save" her mother from depression is what Booklist calls "a winning story full of heart and action." There's prize money, and if she and her friends wins, then she can fly her botanist mother to see the miraculous Cobalt Blue Orchids--flowers that survive against impossible odds. Natalie's mother has been suffering from depression, and Natalie is sure that the flowers' magic will inspire her mom to love life again. Which means it's time for Natalie's friends to step up and show her that talking about a problem is like taking a plant out of a dark cupboard and giving it light. A vibrant, loving debut about the coming-of-age moment when kids realize that parents are people, too. Think THE FOURTEENTH GOLDFISH meets THE THING ABOUT JELLYFISH. The End of Cool Japan Dec 07 2020 Today's convergent media environment offers unprecedented opportunities for sourcing and disseminating previously obscure popular culture material from Japan. However, this presents concerns regarding copyright, ratings and exposure to potentially illegal content which are serious problems for those teaching and researching about Japan. Despite young people's enthusiasm for Japanese popular culture, these concerns spark debate about whether it can be judged harmful for youth audiences and could therefore herald the end of 'cool Japan'. This collection brings together Japan specialists in order to identify key challenges in using Japanese popular culture materials in research and teaching. It addresses issues such as the availability of unofficially translated and distributed Japanese material; the emphasis on adult-themes, violence, sexual scenes and under-age characters; and the discrepancies in legislation and ratings systems across the world. Considering how these issues affect researchers, teachers, students and fans in the US, Canada, Australia, China, Japan and elsewhere in Asia, the contributors discuss the different ways in which academic and fan practices are challenged by local regulations. Illustrating from personal experience the sometimes fraught nature of teaching about 'cool Japan', they

suggest ways in which Japanese Studies as a discipline needs to develop clearer guidelines for teaching and research, especially for new scholars entering the field. As the first collection to identify some of the real problems faced by teachers and researchers of Japanese popular culture as well as the students over whom they have a duty of care, this book will be of great interest to students and scholars of Japanese Studies and Cultural Studies.

Mga tagapag-alaga ng lupa at ng mga hayop Jan 08 2021 Ce livre est le premier d'une série de trois volumes consacrés aux Mangyans alangans de Siapo, un village situé sur l'île de Mindoro, aux Philippines. Les kuyay (les aînés), y présentent des aspects importants de leurs traditions mythologiques, en particulier la création du monde et celle des humains, mais aussi leurs savoirs sur des animaux, comme les oiseaux, les insectes et autres petites bestioles, les rampants, sans oublier leurs esprits-maîtres. Avec les ninunos, des êtres invisibles, les Mangyans se présentent comme les gardiens de la terre et en appellent discrètement à la préservation des environnements, convaincus du fait que l'humain n'est rien sans des solidarités interspécifiques. L'ouvrage comporte des informations recueillies en 2012 et lors de plusieurs ateliers de transmission des savoirs organisés avec eux en 2017, 2018 et 2019, et transcrites en alangan, en tagalog et en français. Le projet a bénéficié d'appuis financiers de la part: du Conseil de recherche en sciences humaines du Canada et, surtout, du Fonds National de la Recherche Scientifique (FNRS, Belgique; F. 6002.17), et du projet PRD «Local Adaptation, Resilience & Interpretation of Socio-Natural Hazards, and Environment Management in the Philippines (2014–2019)».

Writing from an historical and sociological perspective, Joanna Swabe's work discusses such issues as: * animal domestication * the consequences of human exploitation of other animals, including links between human and animal disease * the rise of a veterinary regime, designed to protect humans and animals alike * implications of intensive farming practices, pet-keeping and recent biotechnological developments. Basic Tagalog for Foreigners and Non-Tagalogs Jul 26 2022 "Basic Tagalog takes a friendly and innovative approach, emphasizing the structure of the Tagalog language rather than just vocabulary. This user-friendly beginner Tagalog book teaches more than 2,000 Tagalog words and expressions with over 500 being added for this new edition. These are spread throughout 44 lessons, the Appendices and the exercises as well as in the Tagalog-English and English-Tagalog vocabulary lists at the back of the book. The added Tagalog vocabulary is meant to keep learners abreast of changes that have occurred in the language since the first edition of Basic Tagalog which was published. This edition has retained all the grammar lessons and the tried-and-tested teaching methodology developed by the author, Paraluman S. Aspillera, for the original version. A succinct introduction to the language and a description of the character of Filipinos will hopefully provide learners with a better understanding of the language they are learning. In six months (or about 250 hours), it is expected that an average learner should be able to speak, write and understand simple, everyday, conversational Tagalog as spoken by most Filipinos. Highlights of this book include: Over 2,000 Tagalog words and expressions. 44 lessons organized by organized for efficient language absorption. Extensive exercises and activities to reinforce the lessons. Vocabulary lists serve as comprehensive English-Tagalog and Tagalog-English dictionaries. Hope For the Flowers Jun 12 2021 Hope for the Flowers: A must read during this time of the corona virus and civil unrest in 2020. Caterpillars, Butterflies, Life & a real Hope Revolution THE WORLD HAS BEEN COCOONING; LET US EMERGE WITH HOPE. We have all lived through months of strange relationships with ourselves and the world around us. Virtual gatherings have become the norm, while the pain, uncertainty and injustice goes on. What will our new normal possibly become? What new work? How can we do our part to heal the world from whatever limited space we have? How can our United States truly be one nation under God with liberty and JUSTICE FOR ALL? "What might I do to help others during this global crisis? Is likely still your

question as well as still mine. I will continue to offer my e-book for \$2.99 with my hope that it can strengthen hope and courage in each of you and your children. We will need all we can get! If inspired, please join our Facebook group - Hope (For the Flowers) Revolution. Maybe we can inspire each other to build the better world that's possible. My hope for us is that, like our caterpillar heroes, Stripe and Yellow, we transform in the darkness of the cocoon to something new and totally unexpected. May we each find a way to use this time of darkness to light the way to justice and peace in the world. May we discover our own new beauty as we discover the beauty in our differences. May we each discover our purpose and live with passion this thing called life, while we still can. "How does one become a butterfly" Yellow asks pensively. "You must want to fly so much That you are willing to give up being a caterpillar." I can't think of anything more transformational and radical than the change that happens when a lowly caterpillar worm becomes a flying beautiful butterfly. And it doesn't end with flying! They find their true purpose, to carry the pollen of love from one flower to another and receive in return the sweet nectar that keeps them alive. What wondrous exchange! Sharing is the answer to so much! I'm so grateful the story seems to reach every culture, and over 3 million have loved and shared the paper version in English and countless more in other languages for 50 years. May each of us and the world flourish after this strange dark cocoon of isolation.
