Simplified Signs: A Manual Sign-Communication System for Special Populations, Volume 1. Oct 19 2021 Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor

skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience – such as healthcare professionals, aid workers, military personnel, travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike.

The Sacrificial Rituals of Greek Hero-Cults in the Archaic to the Early Hellenistic Period Oct 26 2019 This study questions the traditional view of sacrifices in hero-cults during the Archaic to the early Hellenistic periods. The analysis of the epigraphical and literary evidence for sacrifices to heroes in these periods shows, contrary to the traditional notion, that the main ritual in hero-cults was a thysia at which the worshippers consumed the meat from the animal victim. A particular handling of the animal's blood or a holocaust, rituals previously taken to be typical for heroes, can rarely be documented and must be considered as marginal features in hero-cults. The terms eschara, escharon, bothros, enagizein, enagisma, enagismos and enagisterion, believed to be characteristic for

hero-cults, are seldom used in hero-contexts before the Roman period and occur mainly in the Byzantine lexicographers and in the scholia. Since the main kind of sacrifice in hero-cults was a thysia, a ritual intimately connected with the social structure of society, the heroes must have fulfilled the same role as the gods within the Greek religious system. The fact that the heroes were dead seems to have been of little significance for the sacrificial rituals and it is questionable whether the rituals of hero-cults are to be considered as originating in the cult of the dead.

A Wolf in the City Dec 21 2021 The problem of tyranny preoccupied Plato, and its discussion both begins and ends his famous Republic. Though philosophers have mined the Republic for millennia, Cinzia Arruzza is the first to devote a full book to the study of tyranny and of the tyrant's soul in Plato's Republic. In *A Wolf in the City*, Arruzza argues that Plato's critique of tyranny intervenes in an ancient debate concerning the sources of the crisis of Athenian democracy and the relation between political leaders and demos in the last decades of the fifth century BCE. Arruzza shows that Plato's critique of tyranny should not be taken as veiled criticism of the

Syracusan tyrannical regime, but rather of Athenian democracy. In parsing Plato's discussion of the soul of the tyrant, Arruzza will also offer new and innovative insights into his moral psychology, addressing much-debated problems such as the nature of eros and of the spirited part of the soul, the unity or disunity of the soul, and the relation between the non-rational parts of the soul and reason.

Empires of the Silk Road Oct 07 2020 The first complete history of Central Eurasia from ancient times to the present day, *Empires of the Silk Road* represents a fundamental rethinking of the origins, history, and significance of this major world region. Christopher Beckwith describes the rise and fall of the great Central Eurasian empires, including those of the Scythians, Attila the Hun, the Turks and Tibetans, and Genghis Khan and the Mongols. In addition, he explains why the heartland of Central Eurasia led the world economically, scientifically, and artistically for many centuries despite invasions by Persians, Greeks, Arabs, Chinese, and others. In retelling the story of the Old World from the perspective of Central Eurasia, Beckwith provides a new understanding of the internal and external dynamics of the Central Eurasian states and shows how their people repeatedly revolutionized Eurasian civilization. Beckwith recounts the Indo-Europeans' migration out of Central Eurasia, their mixture with local peoples, and the resulting development of the Graeco-Roman, Persian, Indian, and Chinese civilizations; he details the basis for the thriving economy of premodern Central Eurasia, the economy's disintegration following the region's partition by the Chinese and Russians in the eighteenth and nineteenth centuries, and the damaging of Central Eurasian culture by Modernism; and he discusses the significance for world history of the partial reemergence of Central Eurasian nations after the collapse of the Soviet Union. *Empires of the Silk Road* places Central Eurasia within a world historical framework and demonstrates why the region is central to understanding the history of civilization.

Crowbone (The Oathsworn Series, Book 5) Oct 31 2022 The long awaited return to Robert Low's Oathsworn series *The Raven & the Wolf* Nov 07 2020 The Raven & the Wolf is an epic saga-like tale of dark-age conflict, oaths, brotherhood and betrayal, set in the throes of a divided and tumultuous 10th century Britain.

Statius, Thebaid 8 Feb 29 2020 Composed at the end of the first century CE, Statius' Thebaid recounts the civil war in Thebes between the two sons of Oedipus, Polynices and Eteocles, and the horrific events that take place on the battlefield. Its author, the Roman poet Statius, employed a wide variety of Greco-Roman sources in order to narrate the Argive expedition against Thebes and the fratricidal war. Book 8 opens with the descent of the Argive seer Amphiaraus to the Underworld through a chasm of the earth; the soldiers mourn

their seer's loss and elect a successor, Thiodamas, who placates Earth (Tellus) through a prayer, before the opening of the second day of hostilities. The book reaches its climax when fierce Tydeus is mortally wounded and dies having committed an act of cannibalism by eating his opponent's brains; Minerva leaves the battlefield in disgust, taking away from her protege the intended gift of immortality. In this volume, Augoustakis presents the first full-length edition of Thebaid 8, with text and apparatus criticus, and an English translation. A detailed introduction discusses the Argive/Theban myth in the Greek and Roman literary tradition and art, as well as the reception of the book in subsequent centuries, especially in Dante's Divine Comedy. The accompanying commentary provides useful notes which explore questions of interpretation and Statius' language and literary craft, with particular emphasis on the exploitation of various Greek and Latin intertexts in Statius' poetry.
