Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

The COVID-19 global pandemic has revealed the fragility of humanity. It is because of uncertainty and ambiguity that leaders must adapt and rise to the challenge. Co-creation leadership is a superpower that leaders need in order to help their organizations thrive. In this book, Dr. Terry Jackson, a renowned expert in executive coaching and organizational change, discusses co-creation leadership and how all leaders can use it to achieve organizational success. He also introduces the co-creation leadership's RECIPE model: (R) Revolutionary Results. Co-creation leadership can produce revolutionary results because co-creation itself is a revolution. Leaders need to ensure that their co-creation isn't merely lip service; otherwise, real transformation can't take place. (E) Execution. Leaders should execute the plans and initiatives to help the organization produce better solutions for their customers. Just imagine what humans could do if they never heard the words "failure" and "limitation." (C) Culture. The culture set by co-creation leadership is all about the "why." By having a North Star in the organization, co-creation leadership can help create a healthy culture with fully engaged employees, improved performance, and increased productivity. (I) Intention. Co-creation leadership is intentional leadership. Leaders should intentionally develop those in the organization to their fullest potential and encourage collaboration. (P) Purpose. Purpose is a key part of co-creation leadership as it motivates everyone in the organization to grow and succeed. Co-creation leadership helps people live their purpose, resulting in increased motivation to succeed. (E) Evolution. A thriving organization is a constantly

evolving organization. Co-creation leadership pushes everyone in the organization to grow, explore new possibilities, and embrace transformation in order to succeed. All six components in co-creation leadership—revolutionary results, execution, culture, intention, purpose, and evolution—are equally important in building a co-creative organization. Take one element away, and the RECIPE of co-creation leadership is incomplete. Leaders with underperforming teams can recognize and apply the components in co-creation to succeed. Successful co-creation paves the way for healthier and happier humans and contributes to flourishing and thriving organizations. Move toward personal and professional success with the tools and strategies in 3.6 Leadership. Unlike most other self-help books, this one takes a balanced approach, with the author positing that if your personal life is not driving your compass, your chances of achieving professional success are slim. The last thing you want to do is embark on a career that leaves your family behind physically or emotionally while you are pursuing professional accomplishments. By following the strategies in this book, you'll learn how to: define, prioritize, and fulfill personal goals; determine if you're in the right job or not; boost performance on job interviews; and avoid toxic traps in the workplace. You'll also gain insights on making connections in person and online, cultivating rich friendships, creating resumes that capture attention, and telling your personal story. Moreover, you'll learn why it's important to write a personal mission statement and what you need to include to improve your chances of accomplishing your goals. Take ownership of your life and your career now, and enjoy dividends down the road by applying the lessons in this book. Wall Street Journal Bestseller From the acclaimed author of *Turn the Ship Around!*, former US Navy Captain David Marquet, comes a radical new playbook for empowering your team to make better decisions and take greater ownership. You might imagine that an effective leader is someone who makes quick, intelligent decisions, gives inspiring speeches, and issues clear orders to their team so they can execute a plan to achieve your organization's goals. Unfortunately, David Marquet argues, that's

an outdated model of leadership that just doesn't work anymore. As a leader in today's networked, information-dense business climate, you don't have full visibility into your organization or the ground reality of your operating environment. In order to harness the eyes, ears, and minds of your people, you need to foster a climate of collaborative experimentation that encourages people to speak up when they notice problems and work together to identify and test solutions. Too many leaders fall in love with the sound of their own voice, and wind up dictating plans and digging in their heels when problems begin to emerge. Even when you want to be a more collaborative leader, you can undermine your own efforts by defaulting to command-and-control language we've inherited from the industrial era. It's time to ditch the industrial age playbook of leadership. In *Leadership is Language*, you'll learn how choosing your words can dramatically improve decision-making and execution on your team. Marquet outlines six plays for all leaders, anchored in how you use language:

- **Control the clock, don't obey the clock:** Pre-plan decision points and give your people the tools they need to hit pause on a plan of action if they notice something wrong.
- **Collaborate, don't coerce:** As the leader, you should be the last one to offer your opinion. Rather than locking your team into binary responses ("Is this a good plan?"), allow them to answer on a scale ("How confident are you about this plan?")
- **Commit, don't comply:** Rather than expect your team to comply with specific directions, explain your overall goals, and get their commitment to achieving it one piece at a time.
- **Complete, not continue:** If every day feels like a repetition of the last, you're doing something wrong. Articulate concrete plans with a start and end date to align your team.
- **Improve, don't prove:** Ask your people to improve on plans and processes, rather than prove that they can meet fixed goals or deadlines. You'll face fewer cut corners and better long-term results.
- **Connect, don't conform:** Flatten hierarchies in your organization and connect with your people to encourage them to contribute to decision-making.

In his last book, *Turn the Ship Around!*, Marquet told the incredible story of abandoning command-and-control leadership on his submarine and

empowering his crew to turn the worst performing submarine to the best performer in the fleet. Now, with Leadership is Language he gives businesspeople the tools they need to achieve such transformational leadership in their organizations.
